LOFTS

TULUM

A piece of art is nature in itself, ignite a spark of inspiration in every corner of our souls. We are here to stretch humanity into new possibilities, to invite to expand crave their own path an inspire others to do the same and deeply understand the wisdom of your body.

We are here to learn through our own experiences and release us from attachments.

We dream to offer you a beautiful space, to reflect your soul and learn that you can be financially resourced for doing what you love.

# PROJECT PHYLOSOPHY

C H Y

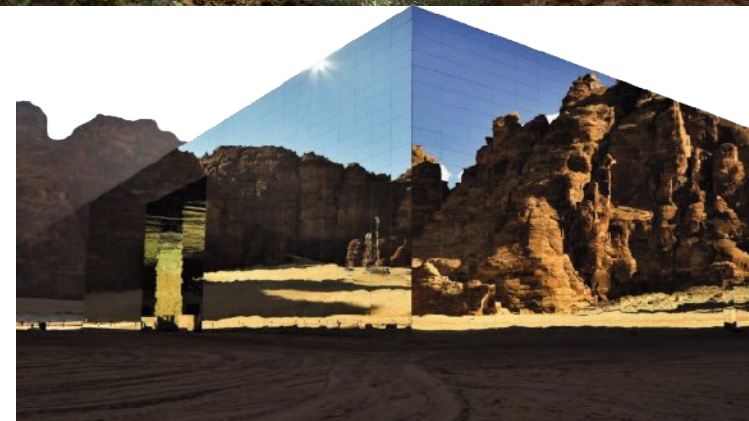

**GREEN BUILDING**  
Sophisticated and secure space

WHERE THE EXTERIOR &  
THE INTERIOR MERGE  
AND RECOMBINE.

*We Build Unique Experiences  
in our Developments.*

Inspired by the Maraya Concert Hall in AlUla, Saudi Arabia, by the winner of the A + Awards, in the Architecture + category.

# PREMIUM LOCATION

Truly privileged location in Tulum, right next to the sanctuary Holistika a total stress-free zone in the middle of the jungle, a place for healing, exploring and reflecting. This community offers intimacy and rapid access to a variety of services and immediate access to the hotel zone of Tulum.

# REDUCING IMPACT

## LOW DENSITY

With 22 lofts on a surface of 20,430 SQFT, we have preserved 50% of green areas. The idea is to have spaces to be inside an inner place with no distractions.

## PRIVACY

Each Cube is surrounded by jungle.

## LOWER MAINTENANCE COSTS

More space means more trees. Their shade will keep your Loft cool and your energy cost low.

## ENERGY EFFICIENCY PRACTICES

Strategical green spaces around each loft, solar panels in common areas and the use of LED lights in all our spaces are all examples of how we can prevent excessive energy costs and lower the environmental impact.

*Love your life*

A modern, multi-story building with a glass and wood facade is nestled within a dense tropical forest. The building features large glass windows and balconies, reflecting the surrounding greenery. The architecture is contemporary and blends with the natural environment. The scene is captured in bright daylight, with sunlight filtering through the trees.
