Tulum, Quintana Roo

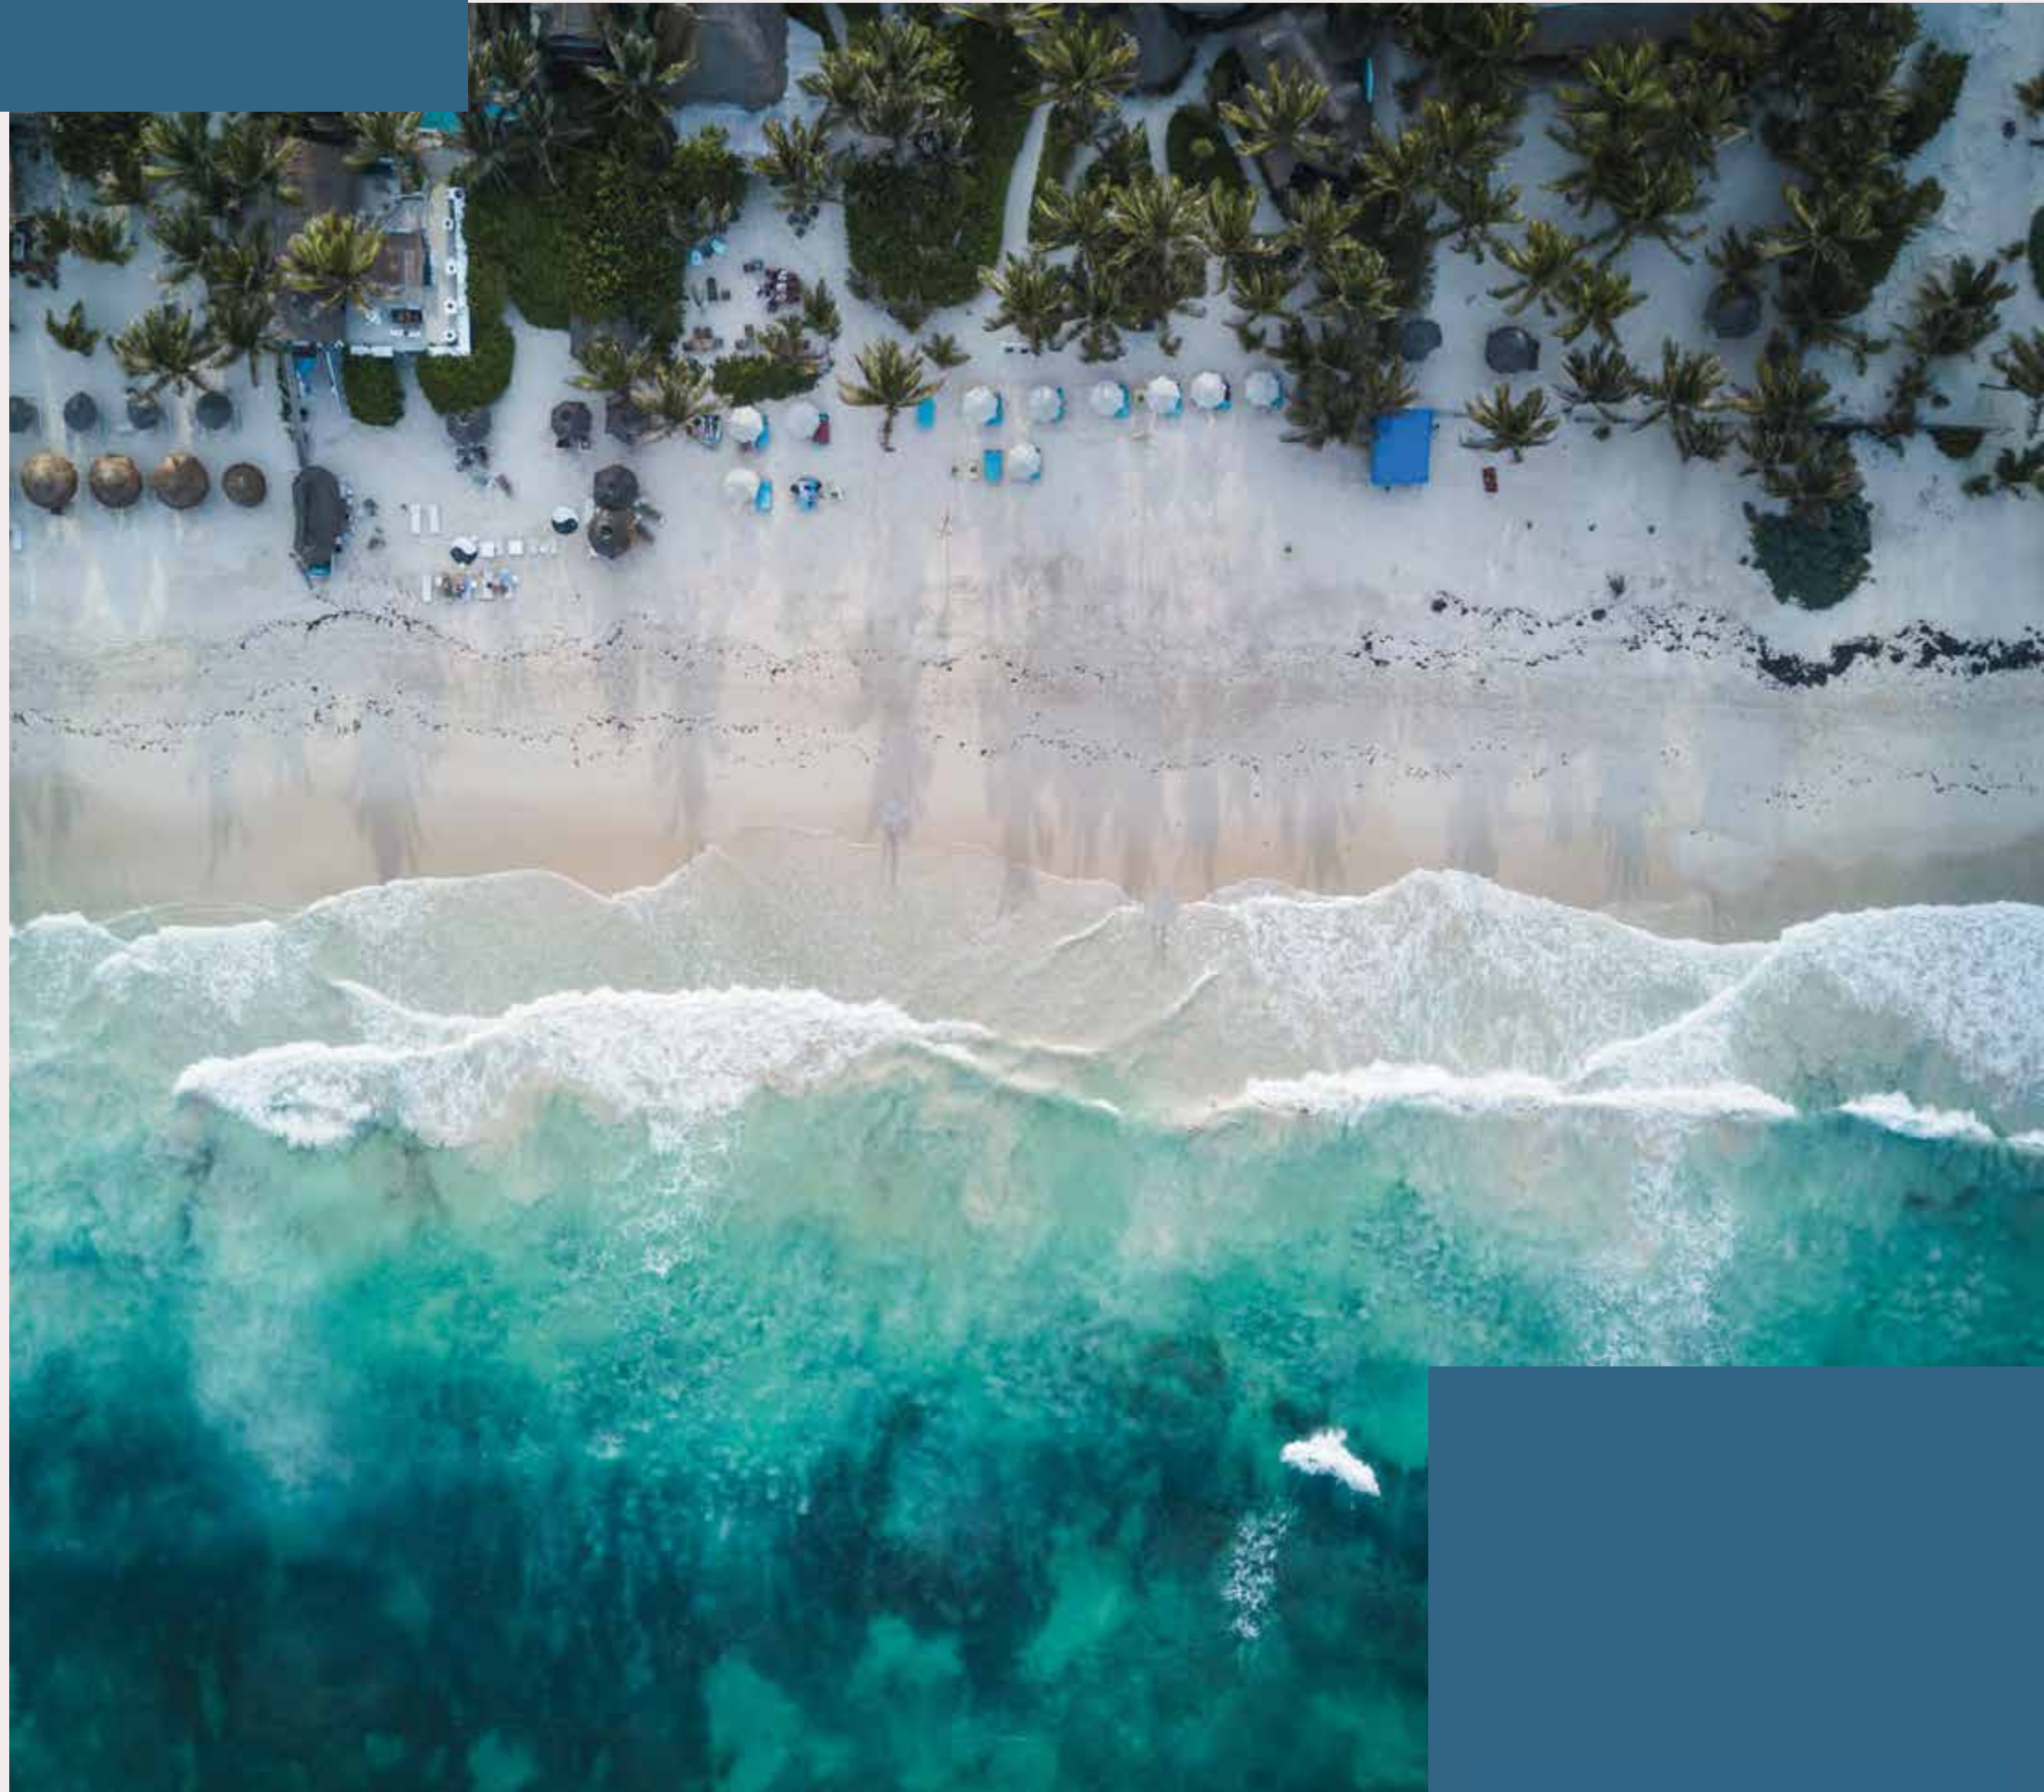

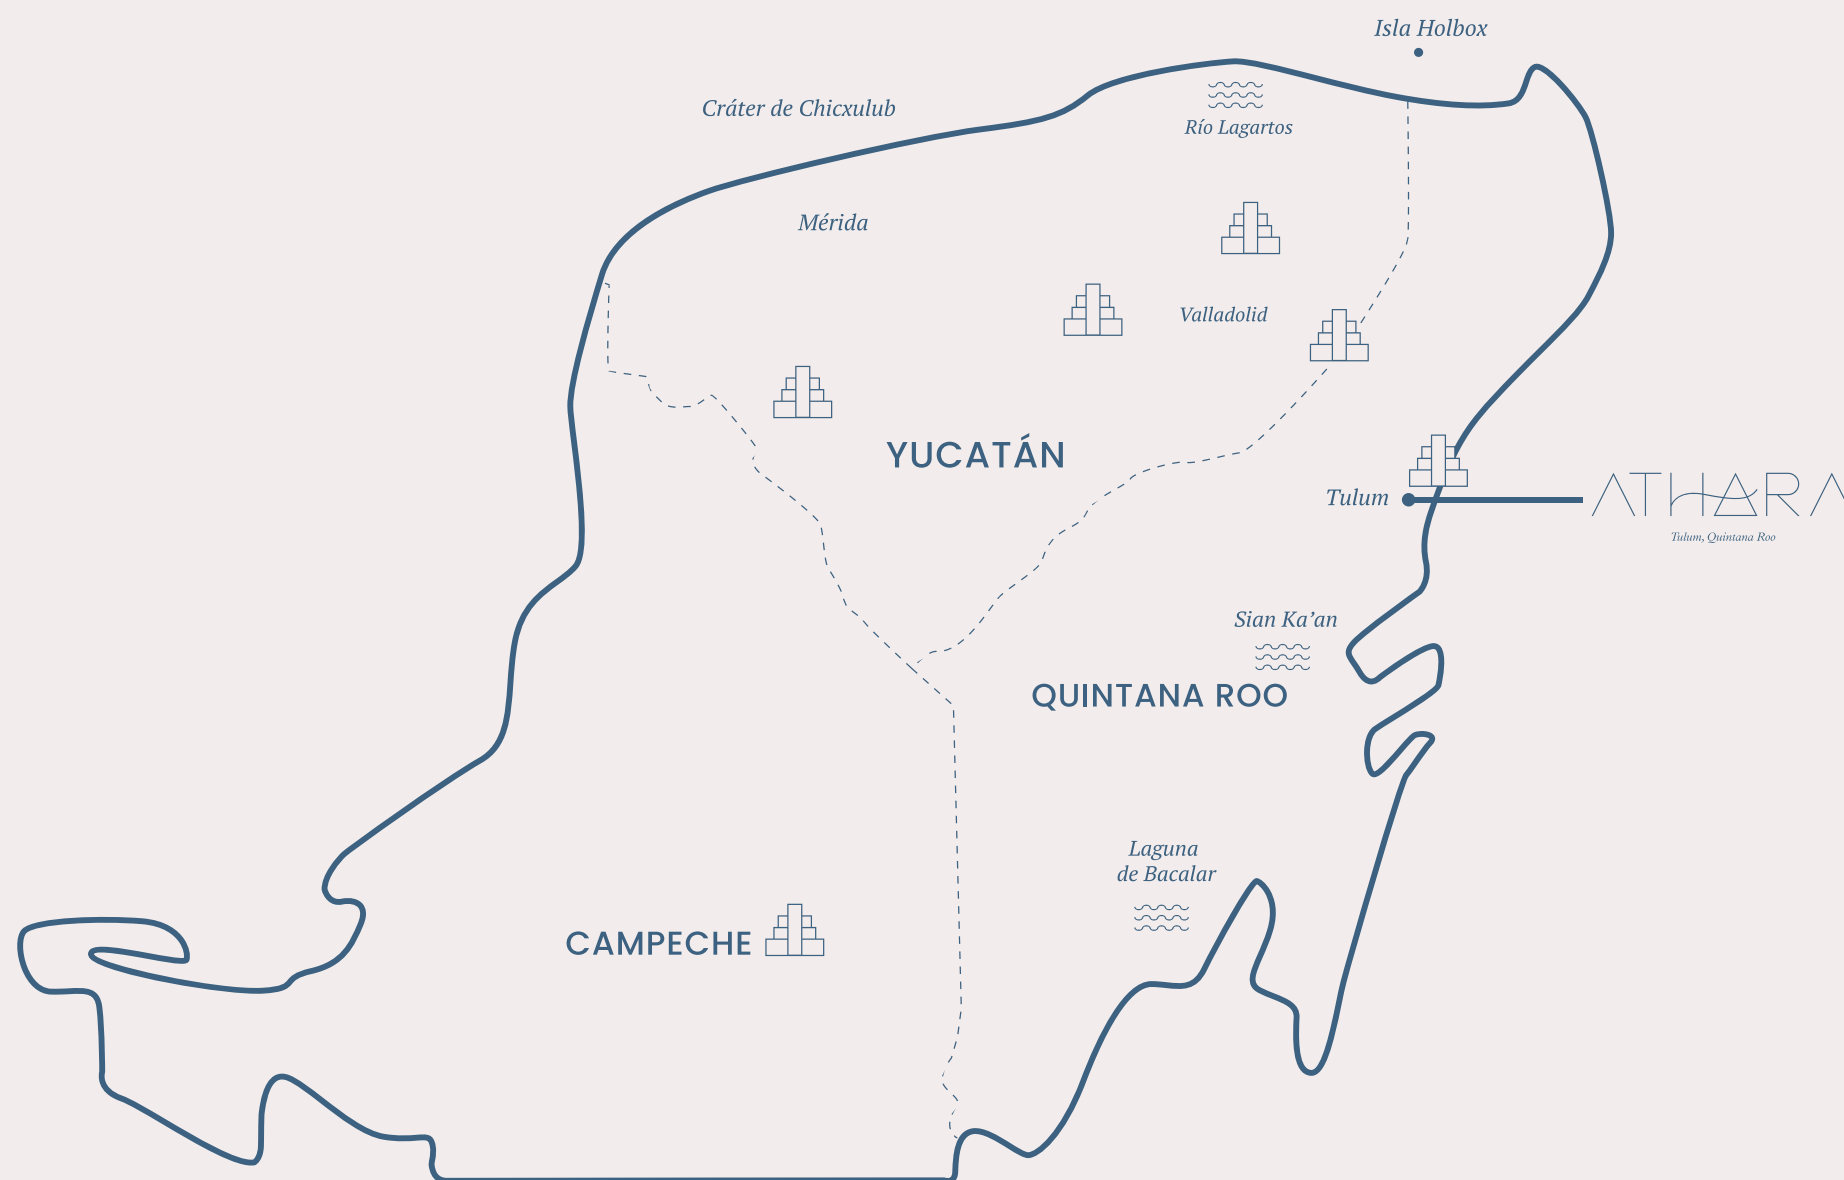

Welcome to Tulum!

Tulum is the essence of the Riviera Maya. Located between the pre-Colombian archaeological site and the Sian Ka'an Biosphere Reserve, it is where the region's cultural and environmental wealth converge.

The destination that has won over travelers from all over the world through its off-beat charm has now become a center of architectural design and innovation in a jungle setting.

Its lush ecosystems and bold architecture go to show that traditional and leading-edge styles can blend harmoniously with nature.

Location

Region 15 is located right between the beach and the village of Tulum. This is a highly awaited area that is rapidly becoming a luxury residential zone, characterized by the high capital gains it offers investors, due to strong demand from domestic and international buyers alike.

Several premium developments have already set the standard for what is to come. It is located just a few minutes from the beach and all the amenities to be found in the bustling village of Tulum, and some 500 meters from Kukulcan Avenue (a new access to the beach).
