## ABOUT

AIDIA STUDIO (ay-dee-uh) is an award-winning architecture and design studio founded by Rolando Rodríguez-Leal and Natalia Wrzask based in London and Mexico City.

Natalia and Rolando met in London in 2005 while working for Foster + Partners. In subsequent years they also collaborated with Zaha Hadid Architects and with the Ateliers Jean Nouvel adding more than 25 years of experience in the best architecture studios in the world.

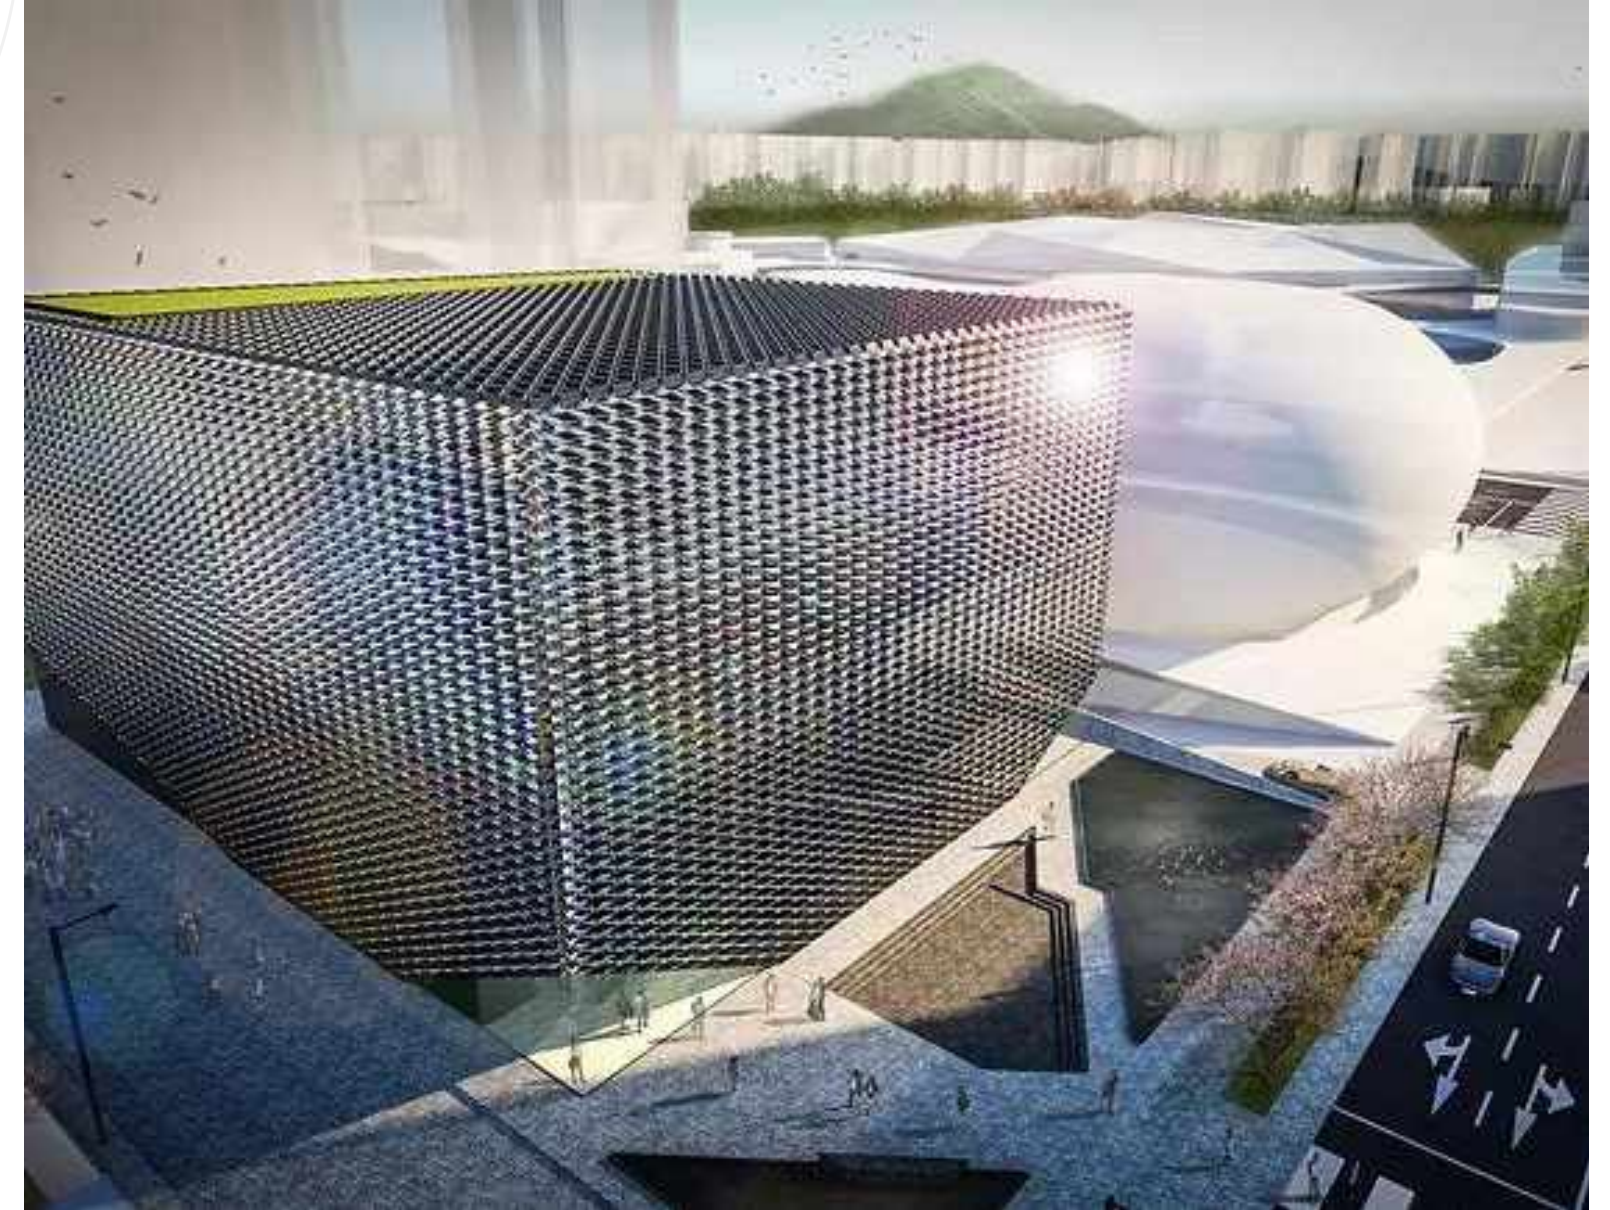

# PROYECTS

---

01. New Preston Mosque

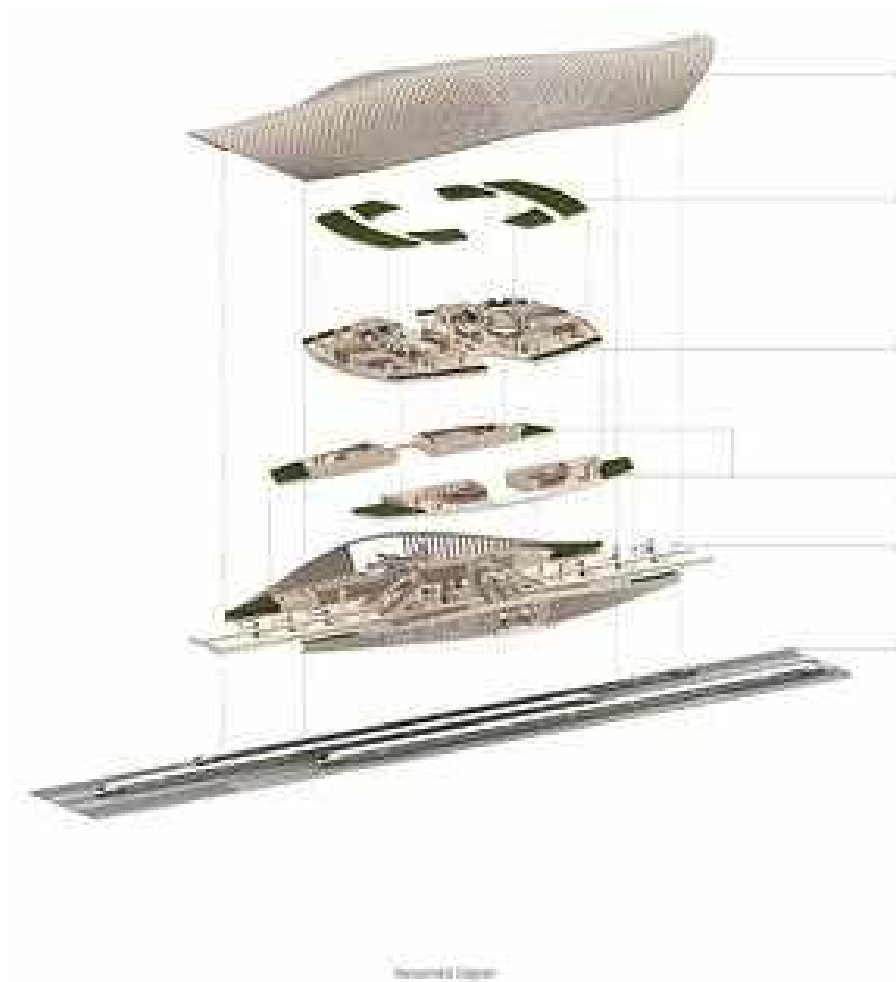

02. Seoul Photographic Art Museum

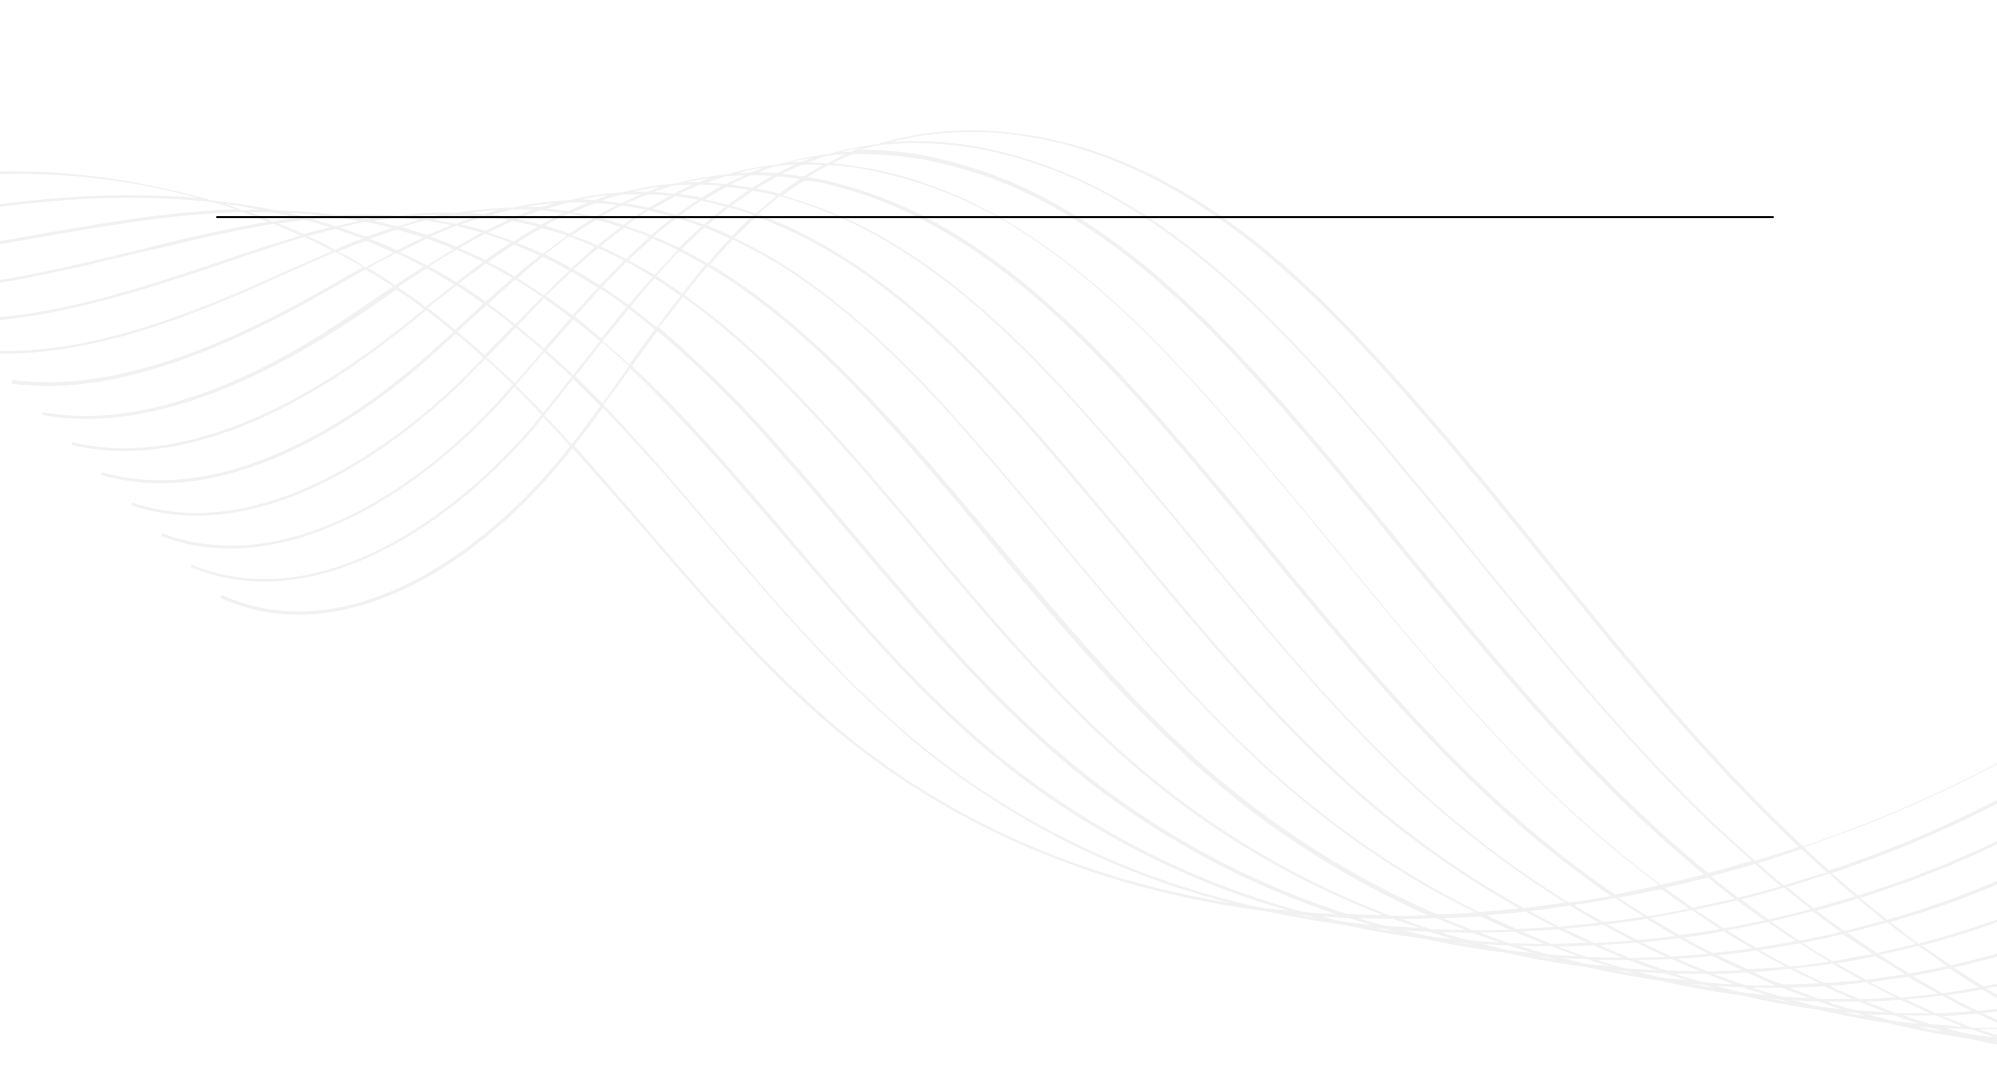

## LOCAL PROYECT

---

## TULUM TRAIN STATION

The station sits in the beach resort of Tulum, in the Mexican Caribbean, along the Riviera Maya. The primary goal in the design process was to push the sustainability agenda to the foreground and to find in that optimized performance a narrative which would speak about the qualities of pre-Hispanic Mayan Architecture through the use of light, shadows, patterns, materials and vegetation.

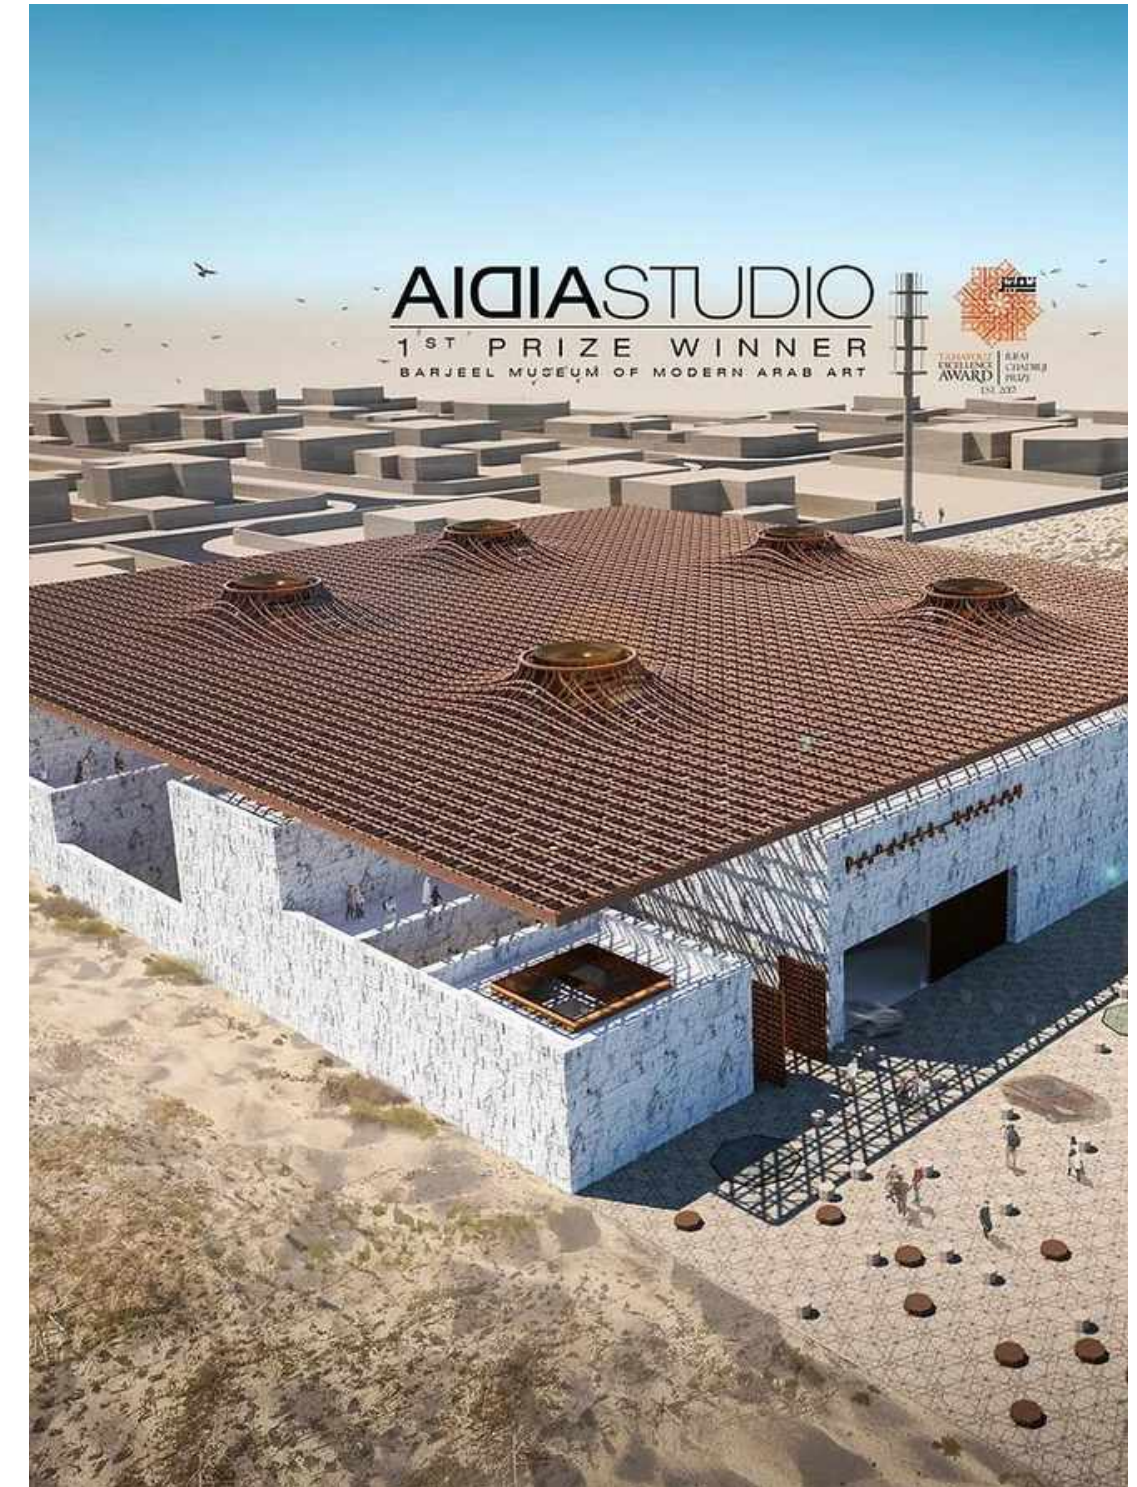

In 2018, Rolando and Natalia co-founded AIDIA STUDIO, an architecture and design workshop based in London and Mexico City. The studio works across scales and typologies striving to achieve on every project site specificity, sustainable responses and sophisticated beauty.
